And God said, Let there be lights in the firmament of the heaven to divide the day from the night; and let them be for signs, and for appointed times, and for days and years. (Gen 1:14)

New Moon Observation

9 August 2021

DEVORAH'S DATE TREE

The most reliable and respected New Moon and Aviv Reports from the Land of Israel

Dear Friends,

The new moon was sighted from Israel this evening, Monday, 9 August 2021!

- * From Tiberias at 7:57pm by Dennis Chkolnik, followed by Maureen Chkolnik.
- * From Poriyah Ilit at 8:00pm by Becca Biderman.

This means that sunset on July 11, 2021 marks the beginning of the new month. Be sure to keep track of what number month this is, based on when you started the new year.

On behalf of all of us who rely on these observations, we wish to thank everyone in Israel who looked for the new moon this evening and sent in their observations in a timely manner. We are also extremely grateful to those of you who have stepped up and are supporting our efforts from afar, your support helps us be able to collect the observations and share these reports in a timely fashion.

The photo at the top of this report was taken from our observation point in Jerusalem this evening (we did not see the New Moon, but we did see Venus).

2021 HOLIDAY DATES
