The most reliable and respected New Moon and Barley Inspection reports from Israel

Dear Friends,

The New Moon has been sighted from Israel this evening, **Monday, 19 June 2023**, thus marking the beginning of the month.

The New Moon was sighted from:

- * Jerusalem at 8:04pm by Devorah Gordon, followed by Gil Ashendorf
- * Maale Adumim by Roy Hoffman with binoculars at 7:44pm and with the naked eye at 7:51pm
- * Ashdod at 8:10pm by MagdiShmuel
- * Haifa (Kiryat Chaim) at 8:20pm by Ephraim Amnon

The photo at the top of this report was taken from our observation point in Jerusalem, this evening. If you look closely, you should be able to see the New Moon.

As days in the Biblical Calendar are from sunset to sunset, Rosh Chodesh (the first day of the month), begins when the New Moon has been sighted, and continues until sunset the following day. Rosh Chodesh a celebratory day (Num 10:10; Hosea 2:11), which was traditionally commemorated by blowing the shofar (Num 10:10; Psalm 81:4[3]), having a festive meal (1 Samuel 20:5, 24), and worshiping at the Beit HaMikdash (Temple) (Isaiah 66:23;

Ezekiel 46:3) with a special sacrifice (Num 28:11-15; 2Chronicles 2:3; Ezra 3:4-5, Ezekiel 45:17, Ezekiel 46:6).
