And God said, Let there be lights in the firmament of the heaven to divide the day from the night; and let them be for signs, and for appointed times, and for days and years. (Gen 1:14)

New Moon Observation

25+ Years Experience
New Moon Observers Across Israel
Thorough Barley Inspections

The most reliable and respected New Moon and Barley Inspection reports from Israel

Dear Friends,

We just got back from looking for the New Moon on **12 January 2024**, and at the time of this writing, we aren't aware of any positive naked eye sightings from this evening's observation. And as we didn't see the New Moon, you won't find it in the photo at the top of this report, which was taken from our observation point in Jerusalem this evening.

Remember, from our perspective on earth, it takes the moon an average of 29.5 days to complete its cycle. This means that the New Moon will generally be visible, either at the end of the 29th day, or at the end of the 30th day.

As this was the end of the 29th day, if no positive reports come in later from this evening's observation, we will plan on going out again tomorrow evening to try and witness the New Moon. [Subscribe](#) to our e-mail list and social media platforms, so you don't miss that report.

On behalf of all of us who keep the Biblical Calendar, we wish to thank everyone who looked for the New Moon from Israel this evening, and all of you who are supporting this important effort from afar.

If you have a question regarding the Biblical Calendar, feel free to [send it to us](#) and we'll do our best to try and answer it in a future newsletter. All of our answers are based on relevant Biblical verses, what we've seen in the Land over the past few decades, and much study and prayer.

We could really use your prayers and support to carry out this important work. Contributions can be made via [PayPal](#), [Patreon](#), or by sending a Check to Devorah's Date Tree, POB 4263, Jerusalem 9104201, ISRAEL.

Together we can restore the Biblical Calendar!
