

And God said, Let there be lights in the firmament of the heaven to divide the day from the night; and let them be for signs, and for appointed times, and for days and years. (Gen 1:14)

Thorough Barley Inspections

Dear Friends,

We just received word that Rivkah Biderman sighted the New Moon from the Galilee this evening, Friday, 12 January 2024, thus marking the beginning of the month. [The photo at the top of this report was taken from our observation point in Jerusalem, this evening. However as we didn't see the New Moon, you won't find it in the photo.]

On behalf of all of us who keep the Biblical Calendar, we wish to thank everyone who looked for the New Moon this evening, and all of you who are supporting this important effort from afar.

As days in the Biblical Calendar are from sunset to sunset, Rosh Chodesh (the first day of the month), begins when the New Moon has been sighted, and continues until sunset the following day. Rosh Chodesh a celebratory day (Num 10:10; Hosea 2:11), which was traditionally commemorated by blowing the shofar (Num 10:10; Psalm 81:4[3]), having a festive meal (1 Samuel 20:5, 24), and worshiping at the Beit HaMikdash (Temple) (Isaiah 66:23; Ezekiel 46:3) with a special sacrifice (Num 28:11-15; 2Chronicles 2:3; Ezra 3:4-5, Ezekiel 45:17, Ezekiel 46:6).

Because the Biblical Calendar is an observational calendar, it's imperative that we carry out thorough Barley Inspections to determine the holiday dates of the first month. Our first Barley Inspection is currently scheduled for just prior to the New Moon Observation on March 11, 2024, and we could really use your prayers and support to ensure it's a success.

If you've been enjoying our reports for a while and been meaning to make a contribution, this is the perfect time to start partnering with us. And if you're already a loyal supporter and able to give a little more during this crucial period, that would be greatly appreciated.

Because the Biblical Calendar is an observational calendar, the actual dates can only be determined once we carry out the necessary Barley Inspections, and observe the crescent New Moon from the Land of Israel. Our first Barley Inspection is currently scheduled for just prior to March 11, 2024. Please partner with us to restore the Biblical Calendar. We could really use your support to carry out this important work.
