

NEW MOON REPORT

Artwork by Susan Lobert

TABLE OF NEW MOON REPORTS FOR

4 October 2024 after sunset, 7th New Moon starting the 7th month, Ethanim
(Harvest method for Abib)

NO SIGHTINGS REPORTED FOR 3 OCTOBER

**New Moon Sighted in Australia, Klerksdorp South Africa,
Kawazulu-Natal South Africa, Indiana, Jamaica, Missouri, Texas**

[VIDEO: How to sight new moons](#)

Look below table for info on next new moon.

When sighting predictions extend over two possible days, and we receive sighting reports from two or more reliable witnesses on the first day, sightings reported for the second day are not listed.

Postings are made as timely as we can.

Thanks for your understanding---Rich Lobert

4 October 2024 New Moon, Klerksdorp, South Africa (TK)

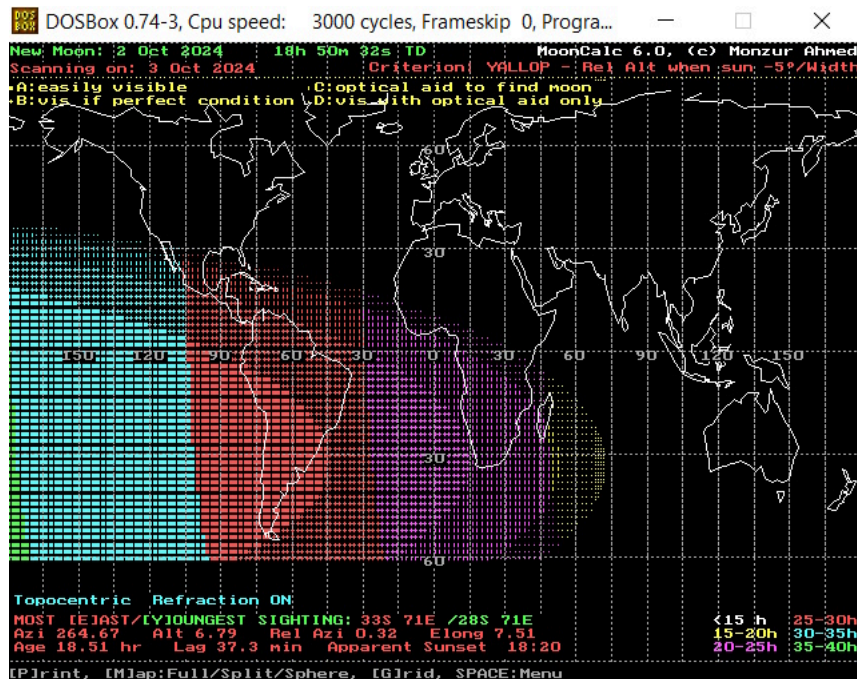

NEXT EXPECTED NEW MOON
(Visual Sighting from areas that report to us)
3/4 October 2024, Wednesday, 7th New Moon, starting the 7th month, Ethanim

**The New Moon is expected to be seen after sunset on Friday 4 October 2024 in continental U. S. and on Thursday 3 October 2024 in some countries, but I have no one who reports from those countries. Moon elevation above the horizon, at sunset, for most of the United States will be about 9 degrees. Moon age in hours for the four U.S. time zones east to west: 52, 53, 54, 55
Sunset to moonset: approximately 54 minutes
Visibility: Easily visible**

Outside of the continental United States:

Australia - Easily visible, 4 Oct
South Africa - Easily visible, 4 Oct
Jerusalem - Easily visible, 4 Oct
México - Easily visible, 4 Oct
Buenos Aires, Argentina - Easily visible on 3 October, Thursday
Santiago, Chile - Easily visible on 3 October, Thursday
Hawaii - Easily Visible, 4 Oct

Reporting Format: Please send the items below (highlight the list, copy, paste into your email, complete each line with your info, and email to the address below- thanks):

- 1.) YOUR NAME -
- 2.) LOCATION (city / town, state) -
- 3.) DATE -
- 4.) SIGHTED? (yes or no) -
- 5.) If YES, TIME SIGHTED - (Local time) -
- 6.) If YES, NUMBER OF PEOPLE (including yourself) who saw it [without binoculars or telescope] -
- 7.) If NO, Was it clear and not seen, or clouds, overcast, haze? -

Thanks for your help getting the information out to others.

Formato de informe: envíe los elementos a continuación (resalte la lista, copie y pegue en su correo electrónico, complete cada línea con su información y envíela por correo electrónico a la siguiente dirección, gracias):

- 1.) SU NOMBRE -
- 2.) UBICACIÓN - (ciudad/estado) -
- 3.) FECHA -
- 4.) VISTO? (sí o no) -
- 5.) SÍ ES SI, TIEMPO AVISTADO (Hora local) -
- 6.) SÍ ES SI, NUMERO DE PERSONAS (incluido usted) que la vieron (sin binoculares ni telescopio) -
- 7.) SÍ NO, Estaba claro y no se ve, o nubes, nublado, neblina? -

Gracias por su ayuda para transmitir la información a otros.

The purpose of having this report is to provide a place to check on New Moon sightings reported from around the world. The sightings listed are from known, reliable sources. New helper's reports are software checked and compared to experienced helper's reports.

Here in Phoenix, we begin our watch the day before the expected sighting, and have an average of four individuals present. Although we use technical information and/or records to help us know where and when to look, we only consider a new moon sighting seen by the unaided eye (corrective eyeglasses accepted). According to Hebrew history, experienced men were sent to the hills around Jerusalem to look for the thin crescent of the visible new moon and confirm the start of a new month. Witnesses worked in pairs and were tested separately when they brought in their reports. Testing consisted of being questioned about such things as the moon's relative position to the sun and drawing what the crescent looked like. Although two witnesses passing the test validated a sighting, other witnesses were also tested. (Babylonian Talmud, tract Rosh Hashanah, 21b through 24a).

TO THOSE WHO WOULD LIKE TO HELP WITH MOON SIGHTING REPORTS:

Thanks for offering to help. I place new moon reports on my web site with the knowledge that the people sending me reports are knowledgeable about new moon sightings and are reliable. This is done to give people confidence that the reports they depend on are valid.

You know about what I believe from my web site. Would you please give me some information about your beliefs and your experience sighting new moons. It doesn't have to be very detailed, but just enough to fulfill my obligation to the brethren who refer to my site for determining their high days.

This does not mean that I expect you to believe what I believe; some of my reports are from astronomers and people of different faiths, but all are sincere and reliable. Thanks again.
