Thorough Barley Inspections

The most reliable and respected New Moon and Barley Inspection reports from Israel

Dear Friends,

The crescent New Moon has been sighted from Israel this evening, **Friday, 4 October 2024**, thus marking the beginning of the **7th Biblical Month**.

The New Moon was sighted from:

- The Zevulun Valley at 6:42pm by Yoel Halevi and his wife and by two other people also in Northern Israel

The above photo was taken from our observation point in Jerusalem this evening, however as we didn't see the moon, you won't find it in the photo.

As days in the Biblical Calendar are from sunset to sunset, Rosh Chodesh (the first day of the month), begins when the crescent New Moon has been sighted, and continues until sunset the following day. Rosh Chodesh a celebratory day (Num 10:10; Hosea 2:11), which was traditionally commemorated by blowing the shofar (Num 10:10; Psalm 81:4[3]), having a festive meal (1 Samuel 20:5, 24), and worshiping at the Beit HaMikdash (Temple) (Isaiah 66:23;

Ezekiel 46:1-3) with a special sacrifice (Num 28:11-15; 2Chronicles 2:3; Ezra 3:4-5, Ezekiel 45:17, Ezekiel 46:6).

On behalf of all of us who keep the Biblical Calendar, we wish to thank everyone who looked for the New Moon from Israel this evening, and all of you who are supporting this important effort from afar.
