And God said, Let there be lights in the firmament of the heaven to divide the day from the night; and let them be for signs, and for appointed times, and for days and years. (Gen 1:14)

Thorough Barley Inspections

Dear Friends,

We want to thank you for partnering with us to restore the Biblical Calendar, and to let you know that the crescent New Moon was sighted from Israel this evening, thus marking the beginning of the **10th Biblical month!**

The crescent New Moon was spotted with the naked eye on **1 January 2025**, from:

- \* Jerusalem at 4:55pm by Devorah Gordon, followed by Gil Ashendorf, Raz, Chaya, and 30 other people
- \* Kiryat Ata at 4:54pm by Ephraim Amnon
- \* Givat Shmuel at 5:16pm by Goldie Jurkowicz

As days in the Biblical Calendar are from sunset to sunset (Gen 1:3,8,13,19,23,31), Rosh Chodesh (the first day of the month), begins when the crescent New Moon has been sighted, and continues until sunset the following day. Rosh Chodesh a celebratory day (Num 10:10; Hosea 2:11), which was traditionally commemorated by blowing the shofar (Num 10:10; Psalm 81:4[3]), having a festive meal (1 Samuel 20:5, 24), and worshiping at the Beit HaMikdash

(Temple) (Isaiah 66:23; Ezekiel 46:1-3) with a special sacrifice (Num 28:11-15; 2Chronicles 2:3; Ezra 3:4-5, Ezekiel 45:17, Ezekiel 46:6).

The photo at the top of this report was taken from our observation point in Jerusalem this evening. However, a photo isn't proof that it's the beginning of the Biblical Month, as the crescent can be seen any time after conjunction if the optical aid is able to magnify and/or create enough contrast. Remember, only a reliable witness can testify as to whether the crescent moon was spotted with the naked eye, as the ancient Israelites would have done.

On behalf of all of us who keep the Biblical Calendar, we wish to thank everyone in Israel who looked for the crescent moon and shared their observations with us in a timely manner, and all of you who are supporting this important effort from afar.

It's our understanding that Chodesh HaAviv (month of the Aviv), is when the planted swathed barley fields (Gen 3:19, Ex 23:10, Ex 23:16) become Aviv (Ex 12:2, Ex 13:3-4, Ex 23:15, Ex 34:18, Dt 16:1), in time for everyone to bring an Omer of their harvest to the Priest, when they go up to the Temple for Chag HaMatzot (Feast of Unleavened Bread) (Lev 23:10, Ex 23:14-19, Ex 34:23-26, Dt 16:13-17). It's also worth noting that 1 March 2025 (New Moon Observation) is too early in the solar cycle for the planted swathed barley fields to be Aviv in time. Whereas, by 30 March 2025 (New Moon Observation), we expect the planted swathed fields to either have already been swathed, or to be swathed in the following days. We are currently planning on carrying out a Barley Inspection just prior to the New Moon Observation on 30 March 2025, and could really use your prayers and support to help make this happen.
