

## Devorah's Date Tree

25+ Years Experience  
Reliable New Moon Observations  
Honest Barley Inspections

The most reliable and respected New Moon and Barley Inspection reports from Israel

Dear Friends,

We want to take this opportunity to respond to some of your questions regarding the timing of the Passover Sacrifice, and the beginning of Chag HaMatzot (Feast of Unleavened Bread).

To understand this, we need to remember that days in the Biblical Calendar are from sunset to sunset (Gen 1:3,8,13,19,23,31). The Passover Sacrifice was brought at the end of the 14th day, which is also the beginning of the 15th day, and thus the beginning of Chag HaMatzot (Feast of Unleavened Bread) (Lev 23:5-6).

The end of the 14th day of the first month on the Biblical Calendar, will be the end of April 13 on the Gregorian Calendar (this year). This means that on 13 April 2025, we will wake up, go about our business, and then at sunset we will commemorate the sacrifice and begin the holiday (at the same time).

Day 1: March 30 sunset - March 31 sunset

Day 2: March 31 sunset - April 1 sunset

Day 3: April 1 sunset - April 2 sunset

Day 4: April 2 sunset - April 3 sunset

Day 5: April 3 sunset - April 4 sunset

Day 6: April 4 sunset - April 5 sunset

Day 7: April 5 sunset - April 6 sunset

Day 8: April 6 sunset – April 7 sunset

Day 9: April 7 sunset – April 8 sunset

Day 10: April 8 sunset – April 9 sunset

Day 11: April 9 sunset – April 10 sunset

Day 12: April 10 sunset – April 11 sunset

Day 13: April 11 sunset – April 12 sunset

Day 14: April 12 sunset – April 13 sunset

>>> Passover Sacrifice brought on April 13 at sunset, marking the beginning of Chag HaMatzot (Feast of Unleavened Bread) <<<

Day 15: April 13 sunset – April 14 sunset

>>> 1st day of Chag HaMatzot (Feast of Unleavened Bread) <<<

We're hoping to be able to witness the state of the Volunteer Fields in Jerusalem again, in a little over a week, and could really use your prayers and support to help make this happen.

Shemini Atzeret (Eighth Day of Assembly)	Oct 14 <i>sunset</i> - Oct 15 <i>sunset</i>	Oct 15 <i>sunset</i> - Oct 16 <i>sunset</i>

The Biblical Calendar is a luni-solar calendar (Gen 1:14), in which the months begin with the sighting of the crescent New Moon (the sign), following conjunction (the lunar phase). And similarly, the years begin with the sighting of the crescent New Moon (the sign), following the Spring Equilux (the solar phase). This is what's meant by the commandment to begin the Biblical Year with Chodesh HaAviv (month of the Aviv) (Ex 12:2, Ex 13:3-4, Ex 23:15, Ex 34:18, Dt 16:1), as the barley begins to become Aviv at the time of the Spring Equilux, as result of the sun becoming stronger. Beginning the Biblical Year with the New Moon after the Spring Equilux, is also how everyone knew when to start their trek up to the Temple in time for Chag HaMatzot (Feast of Unleavened Bread), regardless of when their fields became Aviv. In fact, if one were to begin the Biblical Year prior to the Spring Equilux, Chag HaSukkot (Feast of Booths) won't fall out at the end of the agricultural year (Ex 23:16, Ex 34:22, Lev 23:39, Dt 16:13).
